Dear Doctor Lederberg:

The Board of Scientific Advisers has expressed a wish to be kept informed of the work being done by men who have formerly been Fellows of the Fund. They would therefore appreciate hearing from you giving your present location and position, new lines of research, publications, and any other information which you think might be of interest.

Would you be so good as to let us have a note on your activities before September 1st so that a report on fellowships can be prepared.

Sincerely yours,

L. L. Waters, M.D.
Assistant to the Director
Board of Scientific Advisers
